

Tent Park Garbage Station Guide

Please separate the waste generated during your use of Tent Park according to the rules and dispose of it at the designated waste station.

To all users of the venue, please cooperate with the sorting.

●Combustible waste (organic waste, paper, plastic)

Please drain the kitchen waste well, put it in a plastic bag, and tie the top securely.

(Please make sure that no juice or anything drips down.)

Please put other garbage in a plastic bag and tie it securely.

●Non-combustible waste (cans, bottles, PET bottles)

Please rinse out empty cans and bottles thoroughly.

(Items containing cigarette butts, etc. cannot be collected in empty cans.)

Be sure to puncture used gas cylinders to release the gas.

Please remove the cap and label from the plastic bottle, rinse it well inside, and gather it in a plastic bag, tying the top securely.

●Please place the used charcoal in the can next to the cooking area or sink.

✂Uncollectable waste

Please take home everything that does not apply above. Please be sure to check with the staff for anything that is unclear or uncertain.
